

Volume contents

Volume 96 (1998)

<i>Foreword</i>	1
H.H. Mantsch (Canada) <i>Vibrational spectroscopy of lipids: a historical perspective</i> :	3
R.N.A.H. Lewis, R.N. McElhaney (Canada) <i>The structure and organization of phospholipid bilayers as revealed by infrared spectroscopy</i>	9
K. Brandenburg, U. Seydel (Germany) <i>Infrared spectroscopy of glycolipids</i>	23
J.C. Gómez-Fernández, J. Villalain (Spain) <i>The use of FT-IR for quantitative studies of the apparent pK_a of lipid carboxyl groups and the dehydration degree of the phosphate group of phospholipids</i>	41
J.L.R. Arrondo, F.M. Goñi (Spain) <i>Infrared studies of protein-induced perturbation of lipids in lipoproteins and membranes</i>	53
L. Silvestro, P.H. Axelsen (USA) <i>Infrared spectroscopy of supported lipid monolayer, bilayer, and multibilayer membranes</i>	69
D.D. Baldyga, R.A. Dluhy (USA) <i>On the use of deuterated phospholipids for infrared spectroscopic studies of monomolecular films: a thermodynamic analysis of single and binary component phospholipid monolayers</i>	81
W. Hübner, A. Blume (Germany) <i>Interactions at the lipid–water interface</i>	99
A. Dicko, H. Bourque, M. Pézolet (Canada) <i>Study by infrared spectroscopy of the conformation of dipalmitoylphosphatidylglycerol monolayers at the air–water interface and transferred on solid substrates</i>	125
R. Mendelsohn, D.J. Moore (USA) <i>Vibrational spectroscopic studies of lipid domains in biomembranes and model systems</i>	141
Author Index–Volume 96	159
Subject Index–Volume 96	161
Contents–Volume 96	163
